What is Sequestration?

Sequestration, sometimes called the sequester, is a process that automatically cuts the federal budget across most departments and agencies.

Congress included the threat of sequestration in the [Budget Control Act of 2011](#) as a way to encourage compromise on deficit reduction efforts.

Congress couldn't agree on a budget by the deadline set in the Budget Control Act, so mandatory budget cuts were scheduled to go into effect on January 2, 2013.

Congress stopped the cuts from happening by passing the [American Taxpayer Relief Act](#) on January 2. This law pushed the budget cuts back until March 1, 2013.

Since Congress did not agree on a budget to reduce the deficit by March 1, sequestration has begun and \$85 billion in spending cuts are currently going into effect.

These reports give detailed information about the amount that programs may be cut and which programs are exempt from sequestration:

USDA posts rural funding guide for local governments

The U.S. Department of Agriculture (USDA) recently posted a useful guide outlining federal funding programs available to support rural communities.

[Federal Resources for Sustainable Rural Communities](#) (PDF 44p 6MB) is a guide to programs from the Partnership for Sustainable Communities and the U.S. Department of Agriculture (USDA) that rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life. It is a collaborative effort among USDA, the Department of Housing and Urban Development, the Department of Transportation and the Environmental Protection Agency.

The guide has key information on funding and technical assistance opportunities available from the four agencies, as well as examples of how rural communities across the country have benefitted from federal resources. [The resource guide can be accessed here.](#)

Home | **About Us** | **Map** | **Case Studies** | **Grants** | **Resources** | **Get Involved** |

Tools and Key Resources

One of the goals of the Partnership for Sustainable Communities is to help communities develop and support neighborhoods that provide transportation choices and affordable housing while increasing economic competitiveness and directing resources toward places with existing infrastructure.

To help support these communities, the Partnership agencies compiled this list of useful tools and key resources. All of the resources here have been developed by or sponsored by Partnership agencies. Click on the categories in the sidebar on the right to access these materials.

Rural Communities

[Federal Resources for Sustainable Rural Communities](#) (PDF 44p 6MB) is a guide to programs from the Partnership for Sustainable Communities and the U.S. Department of Agriculture (USDA) that rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life.

[Supporting Sustainable Rural Communities](#) (PDF 52p 3MB)
Produced by the Partnership for Sustainable Communities and USDA, this report features case studies showcasing rural accomplishments, sample funding and technical assistance opportunities, and performance measures rural communities can use to assess their progress.

[Putting Smart Growth to Work in Rural Communities](#)
Focuses on smart growth strategies that can help guide growth in rural areas while protecting natural and working lands and preserving the rural character of existing communities.

[US Department of Agriculture Rural Development Program](#)
Provides resources, tools, and programs to assist communities with improving the economy and quality of life in rural America.

[US Department of Agriculture Atlas of Rural and Small Town America](#)
An interactive data tool to view statistics on people, jobs, and agriculture in your community.

Farm Loans

FSA makes direct and guaranteed farm ownership and operating loans to family-size farmers and ranchers who cannot obtain commercial credit from a bank, Farm Credit System institution, or other lender. FSA loans can be used to purchase land, livestock, equipment, feed, seed, and supplies. Loans can also be used to construct buildings or make farm improvements.

Housing Assistance

USDA provides homeownership opportunities to low- and moderate-income rural Americans through several loan, grant, and loan guarantee programs. The programs also make funding available to individuals to finance vital improvements necessary to make their homes decent, safe, and sanitary. USDA Multi-Family Housing Programs offer Rural Rental Housing Loans to provide affordable multi-family rental housing for very low-, low-, and moderate-income families; the elderly; and persons with disabilities. In addition, rental assistance is available to eligible families.

Rural Development Loan Assistance

USDA Rural Development forges partnerships with rural communities, funding projects that bring housing, community facilities, business guarantees, utilities and other services to rural America. USDA provides technical assistance and financial backing for rural businesses and cooperatives to create quality jobs in rural areas. Rural Development promotes the President's National Energy Policy and ultimately the nation's energy security by engaging the entrepreneurial spirit of rural America in the development of renewable energy and energy efficiency improvements. Rural Development works with low-income individuals, State, local and Indian tribal governments, as well as private and nonprofit organizations and user-owned cooperatives.

Utility Services

USDA supports deployment of reliable and affordable water, waste treatment, electric power and telecommunications services, including broadband, to help rural areas expand economic opportunities and improve the quality of life for rural residents. Rural Development provides funding opportunities in the form of payments, grants, loans, and loan guarantees, for the development and commercialization of vital utility services. These programs revitalize rural communities with a variety of improvements, and create sustainable opportunities for wealth, new jobs, and increased economic activity in rural America.

Crop and Livestock Insurance

USDA helps producers manage their business risks. The mission of USDA's Risk Management Agency (RMA) is to promote, support, and regulate sound risk management solutions to preserve and strengthen the economic stability of America's agricultural producers. As part of this mission, RMA operates and manages the Federal Crop Insurance Corporation (FCIC).

RMA has three divisions: Insurance Services, Product Management, and Risk Compliance. Seventeen private-sector insurance companies sell and service the policies. RMA develops and/or approves the premium rate, administers premium and expense subsidies, approves and supports products, and reinsures the companies. RMA also sponsors educational and outreach programs and seminars on the general topic of risk.

Federal State Marketing Improvement Program

This matching grant program, also known as FSMIP, provides matching funds to State Departments of Agriculture and other appropriate State agencies to assist in exploring new market opportunities for food and agricultural products, and to encourage research and innovation aimed at improving the efficiency and performance of the marketing system.

Specialty Crop Block Grant Program

The SCBGP funds can be requested to enhance the competitiveness of specialty crops. Specialty crops are defined as fruits and vegetables, tree nuts, dried fruits, and nursery crops (including floriculture).

The Farmers Market Promotion Program

The FMPP was created through a recent amendment of the Farmer-to-Consumer Direct Marketing Act of 1976. The grants, authorized by the FMPP, are targeted to help improve and expand domestic farmers markets, roadside stands, community-supported agriculture programs and other direct producer-to-consumer market opportunities.

Organic Cost Share Program

AMS administers two organic certification cost share programs. Each program provides cost share assistance, through participating States, to organic producers and/or organic handlers. Recipients must receive initial certification or continuation of certification from a USDA accredited certifying agent (ACA).

Estimated Total Program Funding:	\$18,300,000
Award Ceiling:	\$100,000
Eligible Applicants:	Others (see text field entitled "Additional Information on Eligibility" for clarification)
Additional Information on Eligibility:	Each applicant submitting an application must qualify as a small business concern for R/R&D purposes at the time of award (see definitions in section 2.0). A potential grantee that is a subsidiary must show that the parent company is also a small business entity and the parent company must provide documentation supporting their

small business status (the documentation should be included in Field 12, Other Attachments, of the Research and Related (R&R) Other Project Information form). If the parent company is not a small business entity, then the subsidiary is not eligible to submit an SBIR application. In addition, the primary employment of the Project Director (PD) must be with the small business concern at the time of award and during the conduct of the proposed research, unless otherwise approved in writing by NIFA. Eligible primary employment means that more than one-half of the PD's time is spent in the employ of the small business. Primary employment with the small business precludes the applicant as a full-time employee with another organization. This requirement applies to Phase I awards and any deviations from this requirement must be approved in writing by the USDA Authorized Departmental Officer (ADO) after consultation with the appropriate National Program Leader (NPL). While the PD must work more than one-half of his/her time for the small business during the entire grant period, there is no time requirement for the PD's work on the proposed research.

Agency Name:

National Institute of Food and Agriculture

Description:

Funds may be awarded up to \$100,000 for a Phase I project. Proposed Phase I projects should prove the scientific or technical feasibility of the approach or concept. Projects dealing with agriculturally related manufacturing and alternative and renewable energy technologies are encouraged across all SBIR topic areas. USDA SBIR's flexible research areas ensure

innovative projects consistent with USDA's vision of a healthy and productive nation in harmony with the land, air, and water. USDA SBIR Program has awarded over 2000 research and development projects since 1983, allowing hundreds of small businesses to explore their technological potential, and providing an incentive to profit from the commercialization of innovative ideas.

Climate variability and change present society with significant economic, health, safety, and national security challenges. NOAA advances scientific and technical programs to help society cope with and adapt to today's variations in climate and to prepare for tomorrow's. Toward this end, the agency conducts and supports climate research, essential oceanic and atmospheric observations, modeling, information management, assessments, interdisciplinary decision support research, outreach, education, and stakeholder partnership development. These investments are key to NOAA's mission of "Science, Service, and Stewardship" and are guided by the agency's vision to create and sustain enhanced resilience in ecosystems, communities, and economies, as described in NOAA's Next Generation Strategic Plan (NGSP)

(<http://www.ppi.noaa.gov/ngsp/>). The NGSP outlines NOAA's long-term climate goal, with the following objectives: 1) Improved scientific understanding of the changing climate system and its impacts; 2) Assessments of current and future states of the climate system that identify potential impacts and inform science, service, and stewardship decisions; 3) Mitigation and adaptation choices supported by sustained, reliable, and timely climate services; and 4) A climate-literate public that understands its vulnerabilities to a changing climate and makes informed decisions. Achieving the first of the NGSP climate objectives, an improved scientific understanding of the changing climate system and its impacts, requires a number of core capabilities be supported. These core capabilities can be broadly categorized to include:

- Understanding and modeling
- Observing systems, data stewardship, and climate monitoring
- Predictions and projections

Integrated service development and decision support These core capabilities and research efforts now allow progress to be made toward the provision of sustained, reliable, and timely climate services, focused initially on the following societal challenges identified in the NGSP:

- Climate impacts on water resources
- Coasts and climate resilience
- Sustainability of marine ecosystems
- Changes in extremes of weather and climate

Each of the Competitions announced in this Federal Funding Opportunity addresses one or more of these core capabilities or societal challenges. It is expected that applications submitted in response to this Opportunity will identify their relevance to NOAA's climate science and services by indicating which core capabilities and/or societal challenges will be addressed by the proposed work. In this regard, application abstracts must include a paragraph describing the work's relevance to the NGSP's climate goal and especially the work's relevance to the Competition being targeted. We estimate that \$15.5 million will be available through this Announcement in FY 2015 for approximately 100 new awards pending budget appropriations. It is anticipated that most awards will be at a funding level between \$50,000 and \$200,000 per year, with some exceptions for larger awards. Investigators are highly encouraged to visit the CPO website <http://cpo.noaa.gov/GrantsandProjects.aspx> for information prior to submitting applications.

This program announcement is for projects to be conducted for a two-year period with an anticipated start date of May 1, 2015 unless otherwise directed. All public or private sources may submit to this Federal Funding Opportunity; however, partnering with universities is highly encouraged. Eligible applicants are institutions of higher education; other nonprofits; commercial organizations; state, local and Indian tribal governments; and Federal agencies. The NWS Research to Operations (R2O) Initiative is a NOAA initiative to expand and accelerate critical weather forecasting research to operations to address growing service demands and increase the accuracy of weather forecasts. This will be achieved through, (1) accelerated development and implementation of improved global weather prediction models; (2) improved data assimilation techniques; (3) nested regional prediction capabilities; (4) post-processing forecast tools and techniques and (5) improved software architecture and system engineering. The NWS R2O Initiative is soliciting proposals from all public and private sources for projects involving applied science, modeling and/or data assimilation that supports development of the Next Generation Global Prediction System (NGGPS), effective assimilation for environmental observations at global and regional scales and, hurricane and other high-impact weather forecast models that meet societal requirements to effectively mitigate economic disruption. This notice provides guidelines for submission of proposals. This notice also describes opportunities and application procedures to demonstrate capabilities that have the potential to be incorporated into operational NWS numerical weather prediction (NWP) analyses and forecasts. The R2O initiative addresses NOAA's Weather Ready Nation (WRN) strategic goal and supporting objectives. The Program also represents an NOAA/NWS effort to foster a cost-effective transition from basic

and applied research to operations and services through collaborative research and developmental testing between institutions which have expertise in the environmental sciences and operational forecast scientists. These activities will engage researchers in applied research of interest with the operational meteorological community and will improve the accuracy of forecasts and warnings of environmental hazards by applying scientific knowledge and information to operational products and services.

Eligible Applicants:

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible applicants are any U.S. organization, excluding commercial organizations and federal entities, located within the United States, such as non-profit organizations, accredited institutions of higher education, and state, tribal, and local governments. An eligible organization may work individually or include proposed subrecipients, contractors and/or unfunded collaborators in a project application, effectively forming a team or consortium. In a team or consortium, eligible subrecipients are the same types of organizations eligible to be applicants and commercial organizations. Thus, commercial organizations may participate in teams or consortia as subrecipients or contractors, as unfunded collaborators, or as third parties that help to accelerate project results or help move them into routine or commercial use. Federal entities may participate in teams or consortia as contractors, informal collaborators,

or in other roles allowed by law, consistent with each entity's authorities, policies, and procedures. A proposed technical collaboration with NIST technical staff is subject to the procedures in Section VI.2.c. of the Full Announcement/FFO document, and NIST's costs should not be included in the application. If approved, NIST's technical collaboration would be as described within Section II.1. of the Full Announcement/FFO document. The NIST Hollings Manufacturing Extension Partnership, and its National Innovation Marketplace program, may be a useful resource for connecting applicants with potential subrecipients, contractors or other collaborators. NIST will only consider one Pre-Application per applicant.

Agency Name:

National Institute of Standards and Technology

Description:

NIST is soliciting applications for Planning Awards from eligible applicants to establish new and strengthen existing industry-driven consortia that identify and support basic and applied research on long term, pre-competitive and enabling technology development for advanced manufacturing. These consortia address major technological barriers that inhibit the growth of advanced manufacturing in the U.S.; identify and prioritize research projects supporting long term industrial research needs; engage in a range of eligible activities including but not limited to creating new or updating industry-driven, shared-vision technology roadmaps; and catalyze the development of a technology infrastructure and American excellence in advanced

Agency Name: Department of Commerce
Description: NOAA NMFS' Marine Mammal Health and Stranding Response Program is directed under the Marine Mammal Protection Act (MMPA) to facilitate the collection and dissemination of reference data on stranded marine mammals and health trends of marine mammal populations in the wild. The John H. Prescott Marine Mammal Rescue Assistance Grant Program is administered by NOAA to provide Federal assistance to eligible members of the National Marine Mammal Stranding Network to: 1) support basic needs of organizations

for response, treatment, and data collection from living and dead stranded marine mammals, 2) fund scientific research objectives designed to answer questions about marine mammal strandings, health, or rehabilitation techniques utilizing data from living and dead stranded marine mammals, and 3) support facility operations directly related to the recovery, treatment, and data collection from living and dead stranded marine mammals. This document describes how to submit proposals for funding in fiscal year (FY) 2015 and how NMFS will determine which proposals will be funded. This document should be read in its entirety, as some information has changed from the previous year.

Description: The Marine Fisheries Initiative
(MARFIN) is a competitive Federal
assistance program that funds
projects seeking to optimize research
and development benefits from U.S.
marine fishery resources through
cooperative efforts involving the
best research and management
talents to accomplish priority
activities. Projects funded under
MARFIN provide answers for
fishery needs covered by the NMFS
Strategic Plan, available from

National Marine Fisheries Service (NMFS), particularly those goals relating to: rebuilding over-fished marine fisheries, maintaining currently productive fisheries, and integrating conservation of protected species and fisheries management. Funding priorities for MARFIN are formulated from recommendations received from non-scientific and technical experts and from NMFS research and operations officials. With the long-term planning capabilities available through the Southeast Data Assessment and Review (SEDAR) process, the priorities are selected to coordinate assessment needs with this solicitation. There is no preference between short-term and long-term projects.

Eligible Applicants: Others (see text field entitled "Additional Information on Eligibility" for clarification)
Additional Information on Eligibility: Eligible applicants may be institutions of higher education, nonprofits, commercial organizations, international or foreign organizations or governments, individuals, state, local and Indian Tribal governments. Eligibility also depends on the statutory authority that permits NOAA to fund the proposed activity. Refer to the CFDA in order to determine an applicant's eligibility. If the applicant is a university that has a NOAA Joint or Cooperative Institute (CI), the institution is encouraged to submit an application that will be associated with the CI. The application must specify the name of the CI, its most recent award number, and the NOAA-approved research theme applicable to the work to be performed in the project narrative. The application will use the facilities and administrative rate (F&A or Indirect Cost Rate) associated with most recent CI award.
Agency Name: Department of Commerce
Description: The purpose of this notice is to request applications for special projects and programs associated with NOAA's strategic plan and mission goals, as well as to provide the general public with information and guidelines on how NOAA will select proposals and administer discretionary Federal assistance under this Broad Agency Announcement (BAA). This BAA is a mechanism to encourage research, education and outreach, innovative projects, or

sponsorships that are not addressed through our competitive discretionary programs. It is not a mechanism for awarding congressionally directed funds or existing funded awards. Funding for potential projects in this notice is contingent upon the availability of Fiscal Year 2014 and Fiscal Year 2015 appropriations. Applicants are hereby given notice that funds have not yet been appropriated for any potential activities in this notice. Publication of this announcement does not oblige NOAA to review an application, or to award any specific project, or to obligate any available funds.

Category of Funding Activity:	Other (see text field entitled "Explanation of Other Category of Funding Activity" for clarification) Regional Development
Category Explanation:	The Economic Development Administration's (EDA's) mission is to lead the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for economic growth and success in the worldwide economy. EDA fulfills this mission through

strategic investments and partnerships that create the regional economic ecosystems required to foster globally competitive regions throughout the United States. EDA supports development in economically distressed areas of the United States by fostering job creation and attracting private investment. Specifically, under the Economic Development Assistance programs (EDAP) Federal Funding Opportunity (FFO) announcement, EDA will make construction, non-construction, and revolving loan fund investments under the Public Works and Economic Adjustment Assistance Programs. Grants made under these programs will leverage regional assets to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, encourage economic development, and strengthen America's ability to compete in the global marketplace. Through the EDAP FFO, EDA solicits applications from rural and urban communities to develop initiatives that advance new ideas and creative approaches to address rapidly evolving economic conditions.

The deadlines for the remaining funding cycles of FY 2014 and the first funding cycle of FY 2015 are listed below. The first funding cycle of FY 2014 is covered under EDA's FY 2013 Economic Development Assistance programs (EDAP) FFO dated November 26, 2012. EDA strongly encourages electronic submissions of applications through www.grants.gov (Grants.gov). To be considered during a particular funding cycle, completed applications must be validated and time-stamped by Grants.gov by 11:59 p.m. Eastern Time on the applicable funding cycle deadline. Alternatively, paper applications may be delivered to the applicable regional office listed in section VIII. of this FFO. Paper applications must be received no later than 5:00 p.m. local time in

the applicable regional office on the funding cycle deadline and the applicant must use a delivery confirmation service from their selected carrier. If your application is received after the deadline, it will be considered late and will not be reviewed by EDA for that funding cycle. EDA will not accept facsimile or email transmissions of applications. The next four funding cycle deadlines are: December 13, 2012 for funding cycle 2 of FY 2014; March 14, 2014 for funding cycle 3 of FY 2014; June 13, 2014 for funding cycle 4 of FY 2014; and October 17, 2015 for funding cycle 1 of FY 2014. Agency Name:

Economic Development Administration

Description:

The Economic Development Administration's (EDA's) mission is to lead the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for economic growth and success in the worldwide economy. EDA fulfills this mission through strategic investments and partnerships that create the regional economic ecosystems required to foster globally competitive regions throughout the United States. EDA supports development in economically distressed areas of the United States by fostering job creation and attracting private

investment. Specifically, under the Economic Development Assistance programs (EDAP) Federal Funding Opportunity (FFO) announcement, EDA will make construction, non-construction, and revolving loan fund investments under the Public Works and Economic Adjustment Assistance Programs. Grants made under these programs will leverage regional assets to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, encourage economic development, and strengthen America's ability to compete in the global marketplace. Through the EDAP FFO, EDA solicits applications from rural and urban communities to develop initiatives that advance new ideas and creative approaches to address rapidly evolving economic conditions.

Agency Name

Economic Development Administration

Description

Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance programs. Under the Planning program EDA assists eligible recipients in creating regional economic development plans designed to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which articulate and prioritize the strategic economic goals of recipients' respective regions. In general, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts to enable these organizations to develop and implement relevant CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help develop and implement CEDS and associated economic development activities. The Planning program also helps support planning organizations, including District Organizations, Indian Tribes, and other eligible Recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. The Local Technical Assistance program strengthens the capacity of local or State organizations, institutions of higher education, and other eligible recipients to undertake and promote effective economic development programs through projects such as feasibility analyses and impact studies.

Corporation for National and Community Service

General Program Overview

AmeriCorps provides resources, both human and financial, to organizations that engage Americans in intensive service to meet our country's critical needs.

Grantees use the funding to support AmeriCorps members for intensive service in their community. AmeriCorps grants partially cover the expense of operating an AmeriCorps program and do not cover general organizational expenses. A cash and in-kind match is required.

The main website can be accessed here: <http://www.nationalservice.gov>

The screenshot shows the website header for the Corporation for National & Community Service. It features a search bar and three main navigation buttons: 'SERVE your community', 'BUILD your capacity', and 'IMPACT on our nation'. Below the header is a dark blue navigation bar with links for 'About CNCS', 'Newsroom', 'Programs', 'Focus Areas', 'Special Initiatives', and 'National Service Blog'. Social media icons for Facebook, Twitter, YouTube, and Email are also present. The breadcrumb trail reads 'Home » Build Your Capacity » Grants'. The main content area is titled 'Build Your Capacity Grants' and includes a 'Funding Opportunities' section. This section contains text about the Corporation providing grants to national and local nonprofits, schools, government agencies, faith-based and community organizations, and other groups committed to strengthening their communities through volunteering. It also mentions that funding opportunities vary by program. Below this, there is a link to 'Notices of Funding Availability / Notice of Funding Opportunities archive page'. A 'Current Funding Opportunities' section is highlighted, dated Jan 22, 2014, with the title 'AmeriCorps State and National Grants FY 2014 (DRAFT)'. A 'Read More' button is visible next to this link. To the right of the main content is a 'National Service In Your State' section with a map of the United States and a 'Read More' button.

National Service in Massachusetts

Meeting Community Needs in Massachusetts: More than **10,000** people of all ages and backgrounds are helping to meet local needs, strengthen communities, and increase civic engagement through national service in Massachusetts. Serving at more than **1,200** locations throughout the state, these citizens tutor and mentor children, support veterans and military families, provide health services, restore the environment, respond to disasters, increase economic opportunity, and recruit and manage volunteers. This year, the Corporation for National and Community Service (CNCS) will commit more than **\$41,180,000** to support Massachusetts communities through national service initiatives. Through a unique public-private partnership, this federal investment will leverage an additional **\$31,160,000** in other resources to strengthen

community impact, build local support, and increase return on taxpayer dollars.

AmeriCorps

This year, AmeriCorps will provide more than **3,300** individuals the opportunity to provide intensive, results-driven service to meet education, environmental, health, economic, and other pressing needs in communities across Massachusetts. Most AmeriCorps grant funding goes to the **Massachusetts Service Alliance**, which in turn awards grants to nonprofit groups to respond to local needs. Most of the remainder of the grant funding is distributed by CNCS directly to multi-state and national organizations through a competitive grants process. Other individuals serve through AmeriCorps VISTA, whose members help bring individuals and communities out of poverty by serving full-time to fight illiteracy, improve health services, create businesses, and increase housing opportunities, and AmeriCorps NCCC (National Civilian Community Corps), a 10-month, full time residential program for men and women between the ages of 18 and 24. In exchange for their service, AmeriCorps members earn an education award that can be used to pay for college or to pay back qualified student loans. Since 1994, more than **27,000** Massachusetts residents have served more than **37 million** hours and have qualified for Segal AmeriCorps Education Awards totaling more than **\$85,580,000**.

Senior Corps

More than **7,000** seniors in Massachusetts contribute their time and talents in one of three Senior Corps programs. Foster Grandparents serve one-on-one as tutors and mentors to more than **6,600** young people who have special needs. Senior Companions help more than **950** homebound seniors and other adults maintain independence in their own homes. RSVP volunteers conduct safety patrols, renovate homes, protect the environment, tutor and mentor youth, respond to natural disasters, and provide other services through more than **480** groups across Massachusetts.

Social Innovation Fund

The Social Innovation Fund transforms lives and communities using limited federal investment as a catalyst to grow the impact of nonprofits with evidence of strong results. It harnesses the expertise of grantmaking intermediaries to identify, evaluate and expand effective nonprofits and engages funding partners to contribute nearly three dollars to every one federal dollar invested. As the Social Innovation Fund network grows programs that work in Massachusetts, more people are

able to overcome their most pressing challenges in the areas of economic opportunity, health, and youth development. The Social Innovation Fund is investing **\$4,550,000** in expanding the impact of 7 nonprofits in Massachusetts, selected and supported by **3** intermediaries.

The Corporation for National and Community Service is a federal agency that improves lives, strengthens communities, and fosters civic engagement through service and volunteering. CNCS annually engages more than five million Americans in service to meet local needs through Senior Corps, AmeriCorps, and national days of service; improves communities through the Social Innovation Fund, and leads President Obama's national call to service initiative, United We Serve. FORECAST OF FUNDING OPPORTUNITIES UNDER THE DEPARTMENT OF EDUCATION DISCRETIONARY GRANT PROGRAMS FOR FISCAL YEAR (FY) 2014

(As of December 20, 2013)

This document lists virtually all programs and competitions under which the Department (we) has invited or expects to invite applications for new awards and provides actual or estimated deadline dates for the transmittal of applications under these programs. The lists are in the form of charts -- organized according to the Department's principal program offices -- and include programs and competitions we have previously announced, as well as those we plan to announce at a later date. **If you are interested in applying for any upcoming grants with the Department of Education, please take the time to register with SAM at www.SAM.gov, as you must have an active account in order to submit a grant application with our agency. We recommend you register now even as you are looking for eligible grant programs so that your SAM registration is active by the time the application is published. This will allow you to focus on writing the application during the period the application is available and you are not spending a portion of that time obtaining SAM registration. Please click [here](#) to refer to the SAM tip sheet for additional information.**

Note: This document is advisory only and is not an official application notice of the Department of Education. We expect to provide updates to this document starting in the first week of November in a fiscal year and continuing through the following July.

Note on printing: For best results, print this document in landscape orientation.

ORGANIZATION OF THIS DOCUMENT

We have assigned to each principal office a separate chart as follows:

[Chart 1 - Institute of Education Sciences.](#)

[Chart 2 - Office of English Language Acquisition.](#)

[Chart 3 - Office of Elementary and Secondary Education.](#)

[Chart 4 - Office of Innovation and Improvement.](#)

[Chart 6 - Office of Special Education and Rehabilitative Services](#) (links to [NIDRR](#), [SEP](#), [RSA](#) charts).

[Chart 7 - Office of Vocational and Adult Education.](#)

[Chart 8 - Office of the Deputy Secretary - ODS.](#)

GRANT APPLICATION INFORMATION

Here's how you can tell whether we've already published an application notice for a particular program or competition in the *Federal Register* and whether the dates we list in this Forecast of Funding Opportunities are actual or estimates:

If we have published the application notice, we will list the *Federal Register* (FR) volume and page number (e.g., 65 FR 53402) after the date in column two. The other dates for that program or competition (columns four and five) are actual (as opposed to estimated) dates.

If we do not follow the date in column two with an FR citation, it means that we have yet to publish the application notice, and the dates (columns, two, four, and five) are estimates only. The actual dates will appear in the official application notice for that program or competition in the *Federal Register*.

Date of Application Notice. In column two of the charts, we lists the actual or estimated date for publication of the application notice for a given program or competition.

Please review the official application notice for pre-application and application requirements, application submission information,

performance measures, priorities and program contact information. Purpose of Program: The purpose of the CSP is to increase national understanding of the charter school model by--

- (1) Providing financial assistance for the planning, program design, and initial implementation of charter schools;
- (2) Evaluating the effects of charter schools, including the effects on students, student academic achievement, staff, and parents;
- (3) Expanding the number of high-quality charter schools available to students across the Nation;
- and (4) Encouraging the States to provide

support to charter schools for facilities financing in an amount that is more commensurate with the amount the States have typically provided for non-chartered public schools. The purpose of the CSP Grants for National Leadership Activities competition is to support efforts by eligible entities to improve the quality of charter schools by providing technical assistance and other types of support on issues of national significance and scope. Catalog of Federal Domestic Assistance (CFDA) Number: 84.282N. Applications for grants under the CSP Grants for National Leadership Activities competition, CFDA number 84.282N must be submitted electronically using the Governmentwide Grants.gov Apply site at www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not email an electronic copy of a grant application to us. You may access the electronic grant application for the CSP Grants for National Leadership Activities competition at www.Grants.gov. You must search for the downloadable application package for this competition by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.282, not 84.282N).

GRANTS & CONTRACTS

Much of the work of the Department of Energy's **Office of Science** (SC) is supported through grants and contractual vehicles. This work is processed through the Office of Science **Grants and Contracts Division** (GCD) which serves as the principal acquisition, financial assistance (grants and cooperative agreements) and contract/grant management advisor to the Director of Science. The GCD provides independent analyses, advice and recommendations on procurement and assistance actions initiated by SC; identifies problem areas, opportunities and management issues and makes recommendations; serves as SC focal point in developing positions and responses to proposed Federal and DOE procurement and assistance regulations and business management policies and procedures; provides advice and guidance and serves as the SC focal point with DOE field offices, laboratories, universities, contractors, grantees and other Government agencies on SC policies and strategies with respect to acquisition, financial assistance and contract/grant management issues.

The Department's **Office of Nuclear Energy** re-established, in FY 1998, a competitive peer-reviewed program to provide grants allowing nuclear engineering faculty and students to conduct innovative research in nuclear engineering and related areas. The awards run from one to three years and are granted in eight separate technical areas related to nuclear engineering: reactor physics, reactor engineering, reactor materials, radiological engineering, radioactive waste management, applied radiation science, nuclear safety and risk analysis, and innovative technologies for next generation reactors, space power and propulsion, or radiation sources. This type of research is vital to the academic community to help promote excellence in nuclear engineering and provide resolution to issues confronting nuclear engineering in general.

The **Office of Nuclear Energy** provides tuition, stipends, and practicums to outstanding graduate students studying nuclear engineering and health physics and undergraduate scholarships and practicums to students pursuing a nuclear engineering course of study to ensure that our country will have an adequate supply of trained nuclear scientists and engineers. As an element of this activity, the University Partnership Program pairs minority institutions with institutions offering a nuclear engineering degree to enable more minorities to enter the field of nuclear engineering.

Agency Name: Golden Field Office

Description: The purpose of this modification is to revise the Notice of Intent to include eligibility language for ALL Applicants and specifically for DOE Federally Funded Research and Development Centers (FFRDCs). The Office of Energy Efficiency and Renewable Energy (EERE) intends to issue, on behalf of the Wind and Water Power Technologies Office (WWPTO), a Funding Opportunity Announcement (FOA) entitled? Technology Incubator for Wind Energy Innovations? EERE is an organization focused on achieving aggressive and well-defined mid-to-long term clean energy goals for the United States of America. In that context, EERE has established multi-year plans and roadmaps. EERE focuses the majority of its resources on a limited number of "highest probability of success" pathways/approaches to ensure that the program initiatives are supported at a critical mass (both in terms of dollars and time) for maximum impact. This roadmap-based approach is one of EERE's greatest strengths, which can create challenges in recognizing and exploring unanticipated, game changing pathways/approaches which may ultimately be superior to the pathways/approaches on our existing roadmaps. To enhance the responsiveness of the roadmap approach, EERE is issuing "Incubator" Funding Opportunity Announcements within its existing Offices and programs to support innovative technologies and solutions that could help

meet existing goals but are not represented in a significant way in the Offices' existing Multi-Year Program Plans (MYPPs) or current portfolios. The Incubator programs will allow EERE to assess new technologies for their potential to be on ramped to future MYPPs. Successful incubator projects will reduce the risk associated with potentially breakthrough approaches and technologies so that they could be viable candidates for inclusion in future program roadmaps. The planned Technology Incubator for Wind Energy Innovations? FOA continues the work of the Wind Program within EERE, and supports the long-term goals of WWPTO, which include: Lower the Levelized Cost of Energy (LCOE) of land-based utility-scale wind energy systems from 2011 reference costs¹ of 7.2 ¢/kWh (cents per kilowatt hour) to 4.2 ¢/kWh by 2030 ?Lower LCOE of fixed-bottom offshore utility-scale wind energy systems from 2011 reference costs¹ of 22.5 ¢/kWh to 13.7 ¢/kWh by 2030. The FOA encompasses applications for any and all ideas that have a significant potential to advance the mission of the Wind Program. All high-impact applications will be considered. The purpose of this Notice is to provide potential applicants advance notice that the Wind and Water Power Technologies Office, on behalf of EERE intends to issue a FOA titled, ?Technology Incubator for Wind Energy Innovations?.

NO APPLICATIONS WILL BE ACCEPTED THROUGH THIS NOTICE.

Please do not submit questions or respond to this Notice of Intent. Prospective applicants to the FOA should begin developing partnerships, formulating ideas, and gathering data in anticipation of the issuance of this FOA. It is anticipated that this FOA will be posted to EERE Exchange no later than March 2014. This Notice is issued so that interested parties are aware of the EERE?s intention to issue this FOA in the near term. All of the information

contained in this Notice is subject to change. EERE will not respond to questions concerning this Notice. Once the FOA has been released, EERE will provide an avenue for potential Applicants to submit questions.

Description:

The U.S. Environmental Protection Agency (EPA) is soliciting applications from eligible applicants as described in Section III.A to provide training and technical assistance for small public water systems to help such systems achieve and maintain compliance with the Safe Drinking Water Act (SDWA), and to provide training and technical assistance for small publicly-owned wastewater systems, communities served by onsite/decentralized wastewater systems, and private well owners to improve water quality under the Clean Water Act (CWA). Training and technical assistance activities provided to these systems, communities and private well owners should be made available nationally in rural and urban communities and to personnel of tribally-owned and operated systems. These goals support the following objectives of EPA's Strategic Plan for Fiscal Year (FY) 2014 – 2018: Goal 2: Protecting America's Waters, Objective 2.1: Protect Human Health, and Objective 2.2: Protect and Restore Watersheds and Aquatic Ecosystems. (The EPA Strategic Plan is available at <http://www2.epa.gov/planandbudget/strategicplan>.)

Agency Name:

Description:

The purpose of this funding opportunity announcement (FOA) is to encourage applications to the newly authorized Direct-to-Phase II SBIR grant mechanism. Applications are invited from eligible United States small business concerns (SBCs) that have demonstrated the scientific and technical merit and feasibility of the prototype stage of developing a biomedical technology that has commercial potential, R&D that is characteristic of Phase-I (R43) SBIR projects. The Direct-to-Phase II grant mechanism is intended to facilitate SBIR-type R&D, to expand R&D opportunities for applicant small business concerns (SBCs), and to enhance the pace of technology development and commercialization.

DHS Financial Assistance

Financial Assistance Overview

Most DHS Components have authority to execute and manage financial assistance to support the DHS mission. Financial assistance is the transfer to a non-Federal recipient of anything of value for a public purpose, and in DHS includes grants, cooperative agreements, training, loans, direct payments, and National flood insurance.

Background

Although most DHS Components possess some grant-making programs, the majority of programs and funding exists within the Federal Emergency Management Agency (FEMA). DHS supports a wide variety of financial assistance including post-disaster relief and resilience, preparedness, boating safety, cybersecurity, research, university centers of excellence, and assistance to fire fighters. The chart below reflects the distribution of financial assistance activity and funding by DHS mission.

[DHS Financial Assistance by Component](#)

Financial Assistance Policy and Oversight (FAPO)

FAPO is within the DHS Office of the Chief Financial Officer, Undersecretary of Management. The office is the functional lead for the Financial Assistance Line of Business. FAPO is responsible for providing oversight, to include the issuance of policy, for all DHS financial assistance programs. The team works with DHS Components to ensure a "One DHS" approach for financial assistance. The Office consists of four units; Information Management and Reporting, Financial Assistance Policy, Financial Assistance Oversight and Strategic

U.S. Department of Homeland Security
Washington, DC 20472

Dear FEMA Grantee:

In August 2011, Congress passed the Budget Control Act of 2011 (Public Law 112-25) to limit federal spending and reduce our national debt. To enforce annual spending limits, that law requires across-the-board funding reductions to almost every federal program, project, and activity through a process called "sequestration."

As a consequence, all federal agencies, including FEMA, will have to implement steep funding cuts, beginning in the current fiscal year. Leadership throughout FEMA and the Department of Homeland Security have been working hard to determine how we might best mitigate the impact of possible sequestration budget reductions on our state, local, tribal, territorial, non-profit and private sector partners.

Nonetheless, the sequestration order issued on March 1, 2013 will result in FEMA's current Fiscal Year (FY) 2013 funding levels being reduced by approximately 5%. This will result in a reduction to FEMA's State and Local grant funding levels of approximately \$104 million.

The sequestration reductions will affect FY 2013 funding levels for all GPD grants, subject to FEMA's final FY 2013 appropriation. Sequestration will not affect grants or cooperative agreements awarded in previous fiscal years.

We recognize the hardships that sequestration is likely to cause and thank you for your cooperation as we work together to manage these unfortunate circumstances. We value the important work that you do and appreciate your dedication to the security and resilience of the Nation. As always, your thoughts, questions and concerns are welcome.

Sincerely,

A handwritten signature in blue ink, appearing to read 'D. Kaufman', is written over a light blue horizontal line.

David J. Kaufman
Acting Assistant Administrator
Grant Programs Directorate

Federal Funding Alternative To AFG

State Administrative Agencies (SAA) apply for and administer Federal grants on behalf of their States, including FEMA Preparedness Grants. The SAA will work with eligible organizations to comply with the general requirements of grant programs or cooperative agreements. Contact your State's SAA to find out what current Federal funding opportunities may be available to your organization. A listing of the SAAs and points of contact can be found at <http://www.fema.gov/library/viewRecord.do?id=6363>.

Additional Information on Eligibility:

City or township governments
State and Local Governments must be invited by DHS to apply. DHS will invite governmental organizations to apply for continuation funding under this FOA. In addition, as part of ongoing improvements in the BioWatch Program, DHS may evaluate requests for some direct support of laboratories that analyze samples collected under the Program. If necessary, this FOA will also award an unspecified number of supplemental awards to current recipients in the event of emergencies, Special Events with National Significance, and limited alterations to current recipients to ensure a secure and resilient nation with the capabilities to thwart terrorist attacks.

Agency Name:

Office of Procurement Operations - Grants Division

Description:

The BioWatch Program is a cornerstone of the Department of Homeland Security's (DHS) comprehensive strategy for countering biological terrorism. The BioWatch Program is an early warning system that is designed to detect the intentional release of select aerosolized biological agents. The BioWatch Program's mission is to provide and maintain a continuous bio-terrorism air monitoring system in metropolitan areas and coordinate with state and local public health communities to prepare for and respond to a bioterrorist event. This mission is accomplished by serving as an early warning system which enhances the security of jurisdictions by providing the needed time to execute their comprehensive concept of operations plans to counter biological terrorism. The Biowatch

Program is a critical part of an ongoing national effort to build and sustain preparedness which helps the United States to maintain momentum through targeted jurisdictional planning that highlights preventative actions necessary to allow for a proper and timely response and begin the process to recovery from a biological agent release. The BioWatch Evaluation Program (BWEP) will be conducted under the BioWatch Quality Assurance Program effective April 1, 2013. This program will consist of independent external audits (Quality Assurance) by Signature Science and internal audits (Quality Control) by BioWatch Systems Program Office field personnel. This approach will initially be conducted with a focus on adherence to the BioWatch Field Operations Standard Operating Procedure (SOP), Version 1.3 and will eventually evolve to encompass the Field Operations Quality Assurance Program Plan (QAPP). In order to ensure a robust QA / QC program the jurisdictions may be subject to a QA external audit and a QC internal audit during the same cooperative agreement cycle (year).

Agency Name:

Department of Housing and Urban
Development

Description:

SHOP Grant funds are awarded to national and regional non-profit organizations and consortia to facilitate and encourage innovative homeownership opportunities on a national, geographically diverse basis through the provision of self-help homeownership housing programs. SHOP Grantees must use a significant amount of SHOP Grant funds in at least two states. SHOP Grant funds must be used for land acquisition, infrastructure improvements, and for reasonable and necessary planning, administration and management costs (not to exceed 20 percent). The construction or rehabilitation costs of each SHOP unit must be funded with other leveraged public and private funds. The average SHOP Grant expenditure for the combined costs of land acquisition and infrastructure improvements must not exceed \$15,000 per SHOP unit. Eligible low-income homebuyers must contribute a significant amount of sweat equity towards the development of the SHOP units. Volunteer labor is also required. Assisted units must be decent, safe, and sanitary non-luxury dwellings that comply with state and local codes, ordinances, and zoning requirements, and with the SHOP requirements (including requirements for energy-efficiency and water conservation). The SHOP units must be sold to homebuyers at prices below the prevailing market price. A homebuyer's sweat equity contribution must not be mortgaged or otherwise restricted upon future sale of the SHOP unit. SHOP Grantees may award SHOP Grant funds to local non-profit affiliate organizations to carry out the Grantee's SHOP program. These affiliate organizations must be located within the Grantee's service area.

1. Eligible applicants. Eligible applicants are PHAs (including newly established consolidated PHAs); tribes/TDHEs; tax exempt nonprofit organizations including grassroots faith-based and other community-based organizations that have resident support, PHA support or the support of tribes; Resident Associations (RAs); resident council (RCs); resident organizations (ROs); City-Wide Resident Organizations (CWROs); Intermediary Resident Organizations (IROs); Jurisdiction-Wide Resident Organizations; Regional Residential Organizations; Resident Management Corporations (RMCs); Site-Based Resident Organizations; Statewide Resident Organizations (SROs); and Tribal/TDHE resident groups. The term "Resident Association" or "RA" will generally be used to refer to all types of eligible resident organizations. Please see the section on "Definition of Terms" for a complete definition of each type of eligible resident organization. HUD's goal is to provide funding to sustain existing programs. HUD will give first renewal priority to FY2011 grantees and second renewal priority to grantees from FY08-10 which were not renewed in the FY11, 12, or 13 competitions. If funds are available after making awards under the renewal categories, HUD will fund eligible applicants under the; category. Under the; category, first priority will be given to applicants with no prior ROSS-SC funding. Second priority will be given to applicants wishing to serve PHAs that are currently being served by ROSS-SC grants that were funded

under the FY2012 or FY2013 NOFAs. Please see Section V.B.3. & Order of Funding Priorities; for more information. Please also see the "Definition of Terms" section for further information about what constitutes a "new applicant," a "renewal applicant," and "new funding." Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.

Agency Name:

Department of Housing and Urban Development

Description:

The purpose of the Public and Indian Housing Resident Opportunity and Self-Sufficiency (ROSS) Service Coordinators (ROSS-SC) program is to provide grants to public housing agencies (PHAs), tribes/Tribally-designated housing entities (TDHEs), Resident Associations (RAs) and tax-exempt nonprofit organizations (including grassroots, faith-based and other community-based organizations) for the provision of a Service Coordinator to coordinate supportive services and other activities designed to help Public and Indian Housing residents attain economic and housing self-sufficiency. This program works to promote the development of local strategies to coordinate the use of assistance under the Public Housing program with public and private resources, for supportive services and resident empowerment activities. These services should enable participating families to increase earned income, reduce or eliminate the need for welfare assistance, make progress toward achieving economic independence and housing self-sufficiency or, in the case of elderly or disabled

residents, help improve living conditions and enable residents to age in-place. A Service Coordinator ensures that program participants are linked to the supportive services they need to achieve self-sufficiency or remain independent. Funds in this program may not be used for the direct provision of supportive services. This program is similar to the Public Housing Family Self-Sufficiency program (PH FSS) however, the PH FSS program is open only to PHAs and tribes/TDHEs, has a requirement of an escrow account for its participants and provides one-year funding. In addition to be open to PHAs and tribes/TDHEs, the ROSS SC program is also open to nonprofit and Resident Association applicants, provides three-year funding, includes administrative expenses and training as eligible uses of the funds and requires a 25% match by statute. A PHA or tribe may receive grants in both programs.
