What is Sequestration?

Sequestration, sometimes called the sequester, is a process that automatically cuts the federal budget across most departments and agencies.

Congress included the threat of sequestration in the [Budget Control Act of 2011](#) as a way to encourage compromise on deficit reduction efforts.

Congress couldn't agree on a budget by the deadline set in the Budget Control Act, so mandatory budget cuts were scheduled to go into effect on January 2, 2013.

Congress stopped the cuts from happening by passing the [American Taxpayer Relief Act](#) on January 2. This law pushed the budget cuts back until March 1, 2013.

Since Congress did not agree on a budget to reduce the deficit by March 1, sequestration has begun and \$85 billion in spending cuts are currently going into effect.

These reports give detailed information about the amount that programs may be cut and which programs are exempt from sequestration:

- [White House Office of Management and Budget Sequestration Reports to the President and Congress](#)
- [Congressional Budget Office Report on Estimated Impact of Automatic Budget Enforcement Procedures Specified in the Budget Control Act](#)

USDA posts rural funding guide for local governments

The U.S. Department of Agriculture (USDA) recently posted a useful guide outlining federal funding programs available to support rural communities.

[Federal Resources for Sustainable Rural Communities](#) (PDF 44p 6MB) is a guide to programs from the Partnership for Sustainable Communities and the U.S. Department of Agriculture (USDA) that rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life. It is a collaborative effort among USDA, the Department of Housing and Urban Development, the Department of Transportation and the Environmental

Protection Agency.

The guide has key information on funding and technical assistance opportunities available from the four agencies, as well as examples of how rural communities across the country have benefitted from federal resources. [The resource guide can be accessed here.](#)

Tools and Key Resources

One of the goals of the Partnership for Sustainable Communities is to help communities develop and support neighborhoods that provide transportation choices and affordable housing while increasing economic competitiveness and directing resources toward places with existing infrastructure.

To help support these communities, the Partnership agencies compiled this list of useful tools and key resources. All of the resources here have been developed by or sponsored by Partnership agencies. Click on the categories in the sidebar on the right to access these materials.

Rural Communities

[Federal Resources for Sustainable Rural Communities](#) (PDF 44p 6MB) is a guide to programs from the Partnership for Sustainable Communities and the U.S. Department of Agriculture (USDA) that rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life.

[Supporting Sustainable Rural Communities](#) (PDF 52p 3MB)

Produced by the Partnership for Sustainable Communities and USDA, this report features case studies showcasing rural accomplishments, sample funding and technical assistance opportunities, and performance measures rural communities can use to assess their progress.

[Putting Smart Growth to Work in Rural Communities](#)

Focuses on smart growth strategies that can help guide growth in rural areas while protecting natural and working lands and preserving the rural character of existing communities.

[US Department of Agriculture Rural Development Program](#)

Provides resources, tools, and programs to assist communities with improving the economy and quality of life in rural America.

[Farm Loans](#)

FSA makes direct and guaranteed farm ownership and operating loans to family-size farmers and ranchers who cannot obtain commercial credit from a bank, Farm Credit System institution, or other lender. FSA loans can be used to purchase land, livestock, equipment, feed, seed, and supplies. Loans can also be used to construct buildings or make farm improvements.

[Housing Assistance](#)

USDA provides homeownership opportunities to low- and moderate-income rural Americans through several loan, grant, and loan guarantee programs. The programs also make funding available to individuals to finance vital improvements necessary to make their homes decent, safe, and sanitary. USDA Multi-Family Housing Programs offer Rural Rental Housing Loans to provide affordable multi-family rental housing for very low-, low-, and moderate-income families; the elderly; and persons with disabilities. In addition, rental assistance is available to eligible families.

[Rural Development Loan Assistance](#)

USDA Rural Development forges partnerships with rural communities, funding projects that bring housing, community facilities, business guarantees, utilities and other services to rural America. USDA provides technical assistance and financial backing for rural businesses and cooperatives to create quality jobs in rural areas. Rural Development promotes the President's National Energy Policy and ultimately the nation's energy security by engaging the entrepreneurial spirit of rural America in the development of renewable energy and energy efficiency improvements. Rural Development works with low-income individuals, State, local and Indian tribal governments, as well as private and nonprofit organizations and user-owned cooperatives.

Utility Services

USDA supports deployment of reliable and affordable water, waste treatment, electric power and telecommunications services, including broadband, to help rural areas expand economic opportunities and improve the quality of life for rural residents. Rural Development provides funding opportunities in the form of payments, grants, loans, and loan guarantees, for the development and commercialization of vital utility services. These programs revitalize rural communities with a variety of improvements, and create sustainable opportunities for wealth, new jobs, and increased economic activity in rural America.

Crop and Livestock Insurance

USDA helps producers manage their business risks. The mission of USDA's Risk Management Agency (RMA) is to promote, support, and regulate sound risk management solutions to preserve and strengthen the economic stability of America's agricultural producers. As part of this mission, RMA operates and manages the Federal Crop Insurance Corporation (FCIC).

RMA has three divisions: Insurance Services, Product Management, and Risk Compliance. Seventeen private-sector insurance companies sell and service the policies. RMA develops and/or approves the premium rate, administers premium and expense subsidies, approves and supports products, and reinsures the companies. RMA also sponsors educational and outreach programs and seminars on the general topic of risk.

Federal State Marketing Improvement Program

This matching grant program, also known as FSMIP, provides matching funds to State Departments of Agriculture and other appropriate State agencies to assist in exploring new market opportunities for food and agricultural products, and to encourage research and innovation aimed at improving the efficiency and performance of the marketing system.

Specialty Crop Block Grant Program

The SCBGP funds can be requested to enhance the competitiveness of specialty crops. Specialty crops are defined as fruits and vegetables, tree nuts, dried fruits, and nursery crops (including floriculture).

The Farmers Market Promotion Program

The FMPP was created through a recent amendment of the Farmer-to-Consumer Direct Marketing Act of 1976. The grants, authorized by the FMPP, are targeted to help improve and expand domestic farmers markets, roadside stands, community-supported agriculture programs and other direct producer-to-consumer market opportunities.

Organic Cost Share Program

AMS administers two organic certification cost share programs. Each program provides cost share assistance, through participating States, to organic producers and/or organic handlers. Recipients must receive initial certification or continuation of certification from a USDA accredited certifying agent (ACA).

Public Television Stations. Public television station means a noncommercial educational television broadcast station that is qualified for Community Service Grants by the Corporation for Public Broadcasting under section 396 (k)

of the Communications Act of 1934. These are over-the air broadcast stations that meet the specific program definition for public television stations. Typically they are PBS (Public Broadcasting Service) member stations, although that is not a requirement. Public access cable TV stations and PEG channels (public, educational, government access channels) are NOT eligible for this grant program. Low power television (LPTV) stations or any other broadcast stations that are not on the Corporation for Public Broadcasting eligibility list are also NOT eligible. Utilities Programs

Agency Name:

Description:

As part of the nation's transition to digital television, the Federal Communications Commission (FCC) required all television broadcasters to have converted their transmitters to broadcast digital signals by June 12, 2009. While stations must broadcast their main transmitter signal in digital, many rural public television stations have yet to complete a full digital transition of their stations across all equipment. Rural stations often have translators serving small or isolated areas and some of these have not completed the transition to digital. The digital transition has also created some service gaps where households that received an analog signal are now unable to receive a digital signal, and the public television station would like to install a fill-in translator to continue service to these areas. Some rural stations also have not fully converted their production and studio equipment to digital. Grant funds may be used to acquire and install facilities and software necessary for

the transition as well as equipment to facilitate local origination and management of programming. Grant funds may also be used for associated engineering and environmental studies. The program is targeted at public television stations that serve rural areas.

Agency Name: Natural Resources Conservation Service

Description: EXECUTIVE SUMMARY: NRCS is the Department of Agriculture's (USDA) conservation agency working with farmers, ranchers, and private forest landowners nationwide to identify and address natural resource objectives and implement conservation practices and activities to deliver environmental benefits locally, regionally, and nationally. Through the new Farm Bill, NRCS has been given the authority to

enhance regional cooperation to more effectively implement and maintain conservation activities, thereby promoting the restoration and sustainable use of soil, water, wildlife, and related natural resources on regional or watershed scales. Through the Regional Conservation Partnership Program (RCPP), NRCS will co-invest in mobilizing creative and workable solutions to agricultural production and resource management challenges. These solutions will benefit not only individual farming, ranching, and forest operations, but also local economies and the communities and resource users in a watershed or other geographic area that depend on the quality of the natural resources. Through RCPP, NRCS will increase the opportunity for partners to bring innovative ideas and resources to accelerate conservation on private lands. RCPP partners will have the opportunity to join in this mission by developing project applications, as described in this notice, to address specific natural resource objectives in a proposed area or region. Partners will commit to activities to promote, implement, and evaluate the outcomes of conservation. RCPP combines the authorities of four former conservation programs – the Agricultural Water Enhancement Program, Chesapeake Bay Watershed Program, Cooperative Conservation Partnership Initiative (CCPI), and Great Lakes Basin Program. Assistance is delivered in accordance with the rules of the Environmental Quality Incentives Program (EQIP), Conservation Stewardship Program (CSP), Agricultural Conservation Easement

Program (ACEP), and Healthy Forests Reserve Program (HFRP), and in certain areas, the Watershed Operations and Flood Prevention Program. The purpose of this notice is to announce the availability of nearly \$400 million in CCC funding for RCPP and to solicit applications from potential partners who seek to enter into partnership agreements with NRCS under RCPP. Partners will work with producers and landowners to promote the restoration and sustainable use of natural resources on regional or watershed scales. Applications will be accepted from all 50 States, the Caribbean Area (Puerto Rico and U.S. Virgin Islands), and U.S. territories in the Pacific Island Areas (Guam, American Samoa, Republic of Palau, Federated States of Micronesia, Republic of Marshall Islands, and the Commonwealth of the Northern Mariana Islands).

Description:	The Rural Housing Service (RHS) announces that it is soliciting applications under its Housing Preservation Grant (HPG) program. The HPG program is a grant program which provides qualified public agencies, private nonprofit organizations, which may include but not be limited to Faith-Based and Community Organizations, and other eligible entities grant funds to assist very low- and low-income

homeowners in repairing and rehabilitating their homes in rural areas. In addition, the HPG program assists rental property owners and cooperative housing complexes in repairing and rehabilitating their units if they agree to make such units available to low- and very low-income persons. This action is taken to comply with Agency regulations found in 7 CFR part 1944, subpart N, which require the Agency to announce the opening and closing dates for receipt of preapplications for HPG funds from eligible applicants. The intended effect of this Notice is to provide eligible organizations notice of these dates.

Individuals

Additional Information on Eligibility:

To be eligible for this program, an applicant must meet the eligibility requirements specified in 7 CFR 4280.109, 7 CFR 4280.110(c), and, as applicable, 7 CFR 4280.112, or 7 CFR 4280.122. For the purpose of this Notice, and in addition to meeting the small business size determination as defined under small business in 7 CFR 4280.103, rural small business applicants must demonstrate that the majority (i.e., 51 percent or more) of their past 3 years' annual receipts from their business operation are derived from a rural area. If the rural small business applicant has not engaged in business operations for the past 3

years, then information for as long as the rural small business applicant has been in business must be submitted. To ensure that there is sufficient information for the Agency to make this determination, rural small business applicants, as part of their application requirements in 7 CFR 4280.116(b)(3)(v)(A), should list the physical address, total annual receipts, and number of employees for each urban or rural location. The Agency will make this determination for rural small business applicants that do not have any annual receipts (new businesses only) on the location of the rural small business applicant.

Additional Information on Eligibility:

Be legally organized as an incorporated organization or partnership; an Indian tribe or tribal organization; a state or local unit of government; a consortium; or other legal entity, including a private corporation organized on a for profit or not-for profit basis with the legal capacity to contract with the United States Government. Specific legal definitions and citations can be found in 7 CFR 1703.103(a)(1) & 1703.125(k). Many applicants for DLT Grants are informal consortia. This means that they are an assemblage of individual legal entities, such as school districts, that are working together specifically for the purpose of applying for a grant. However, as a group

they do not have a separate legal existence. For additional guidance about applying as a consortium, please turn to Legal Eligibility under Section IV. 2. Either operate a rural community facility directly, or deliver distance learning or telemedicine services to another organization that operates a rural community facility. 3. Currently deliver or propose to deliver distance learning or telemedicine services for the term of the grant. Competitive proposals demonstrate an ability to sustain a project beyond the three-year term of the grant. To receive a grant, the purposes must meet the grant definition of distance learning and/or telemedicine. The DLT program is focused on financing projects that will be sustainable. Planning studies, research projects, and short-term demonstration projects will not be considered. Equipment vendors, system integrators, and other businesses whose purpose in the proposal is to sell equipment or technological services to support applicants cannot themselves be applicants or affiliates of the applicant. Applications may only be submitted by nonprofit organizations and institutions of higher education that have demonstrated knowledge of biodiesel fuel production, use, or distribution; and the demonstrated ability to conduct educational and technical support programs.

Agency Name:

National Institute of Food and Agriculture

Description:

The goals of the Biodiesel Fuel Education Program as originally established in Sec. 9004 of the Farm Security Investment Act of 2002 (7 U.S.C. 8104) were to stimulate biodiesel consumption and to stimulate the development of a biodiesel infrastructure. The information and outreach activities to raise awareness of the benefits of biodiesel fuel use complemented the incentives provided by the Energy Policy Act of 2005 (EPAAct) (Pub. L. 109-58), and the Energy Independence and Security Act of 2007 (Pub. L. 110-140). As a result of increased awareness and consumption of biodiesel over the past decade, the FY 2014 Biodiesel Education program will focus on educational programs which will support advances in infrastructure, technology transfer, fuel quality, fuel safety and increasing feedstock production.

Economic Development Administration
FY 2014 Economic Development Assistance Programs
And Modification 1

Document Type: Grants Notice
Funding Opportunity Number: EDAP2014
Funding Opportunity Title: FY 2014 Economic Development Assistance Programs
Opportunity Category: Discretionary
Funding Instrument Type: Cooperative Agreement Grant
Category of Funding Activity: Other (see text field entitled "Explanation of Other Category of Funding Activity" for clarification) Regional Development
Category Explanation: The Economic Development Administration's (EDA's) mission is to lead the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for economic growth and success in the worldwide economy. EDA fulfills this mission through strategic investments and partnerships that create the regional economic ecosystems required to foster globally competitive regions throughout the United States. EDA supports development in economically distressed areas of the United States by fostering job creation and attracting private investment. Specifically, under the Economic Development Assistance programs (EDAP) Federal Funding Opportunity (FFO) announcement, EDA will make construction, non-construction, and revolving loan fund investments under the Public Works and Economic Adjustment Assistance Programs. Grants made under these programs will leverage regional assets to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, encourage economic development, and strengthen America's ability to compete in the global marketplace. Through the EDAP FFO, EDA solicits applications from rural and urban communities to develop initiatives that advance new ideas and creative approaches to address rapidly evolving economic conditions.

Original Closing Date for Applications:

The deadlines for the remaining funding cycles of FY 2014 and the first funding cycle of FY 2015 are listed below. The first funding cycle of FY 2014 is covered under EDA's FY 2013 Economic Development Assistance programs (EDAP) FFO dated November 26, 2012. EDA strongly encourages electronic submissions of applications through www.grants.gov (Grants.gov). To be considered during a particular funding cycle, completed applications must be validated and time-stamped by Grants.gov by 11:59 p.m. Eastern Time on the applicable funding cycle deadline. Alternatively, paper applications may be delivered to the applicable regional office listed in section VIII. of this FFO. Paper applications must be received no later than 5:00 p.m. local time in the applicable regional office on the funding cycle deadline and the applicant must use a delivery confirmation service from their selected carrier. If your application is received after the deadline, it will be considered late and will not be reviewed by EDA for that funding cycle. EDA will not accept facsimile or email transmissions of applications. The next four funding cycle deadlines are: December 13, 2012 for funding cycle 2 of FY 2014; March 14, 2014 for funding cycle 3 of FY 2014; June 13, 2014 for funding cycle 4 of FY 2014; and October 17, 2015 for funding cycle 1 of FY 2014. Economic Development Administration

Description

Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance programs. Under the Planning program EDA assists eligible recipients in creating regional economic development plans designed to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which articulate and prioritize the strategic economic goals of recipients' respective regions. In general, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts to enable these organizations to develop and implement relevant CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help develop and implement CEDS and associated economic development activities. The Planning program also helps support planning organizations, including District Organizations, Indian Tribes, and other eligible Recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. The Local Technical Assistance program strengthens the capacity of local or State organizations, institutions of higher education, and other eligible recipients to undertake and promote effective economic development programs through projects such as feasibility analyses and impact studies.

Corporation for National and Community Service

General Program Overview

AmeriCorps provides resources, both human and financial, to organizations that engage Americans in intensive service to meet our country's critical needs.

Grantees use the funding to support AmeriCorps members for intensive service in their community. AmeriCorps grants partially cover the expense of operating an AmeriCorps program and do not cover general organizational expenses. A cash and in-kind match is required.

The main website can be accessed here: <http://www.nationalservice.gov>

The screenshot shows the website's navigation bar with the logo and a search button. Below the navigation bar are three main sections: 'SERVE your community', 'BUILD your capacity', and 'IMPACT on our nation'. The 'BUILD your capacity' section is highlighted. Below this is a dark blue navigation bar with links for 'About CNCS', 'Newsroom', 'Programs', 'Focus Areas', 'Special Initiatives', and 'National Service Blog'. Social media icons for Facebook, Twitter, YouTube, and Email are also present. The breadcrumb trail reads 'Home » Build Your Capacity » Grants'. The main content area is divided into three columns. The left column is titled 'Build Your Capacity' and lists various grant-related links. The middle column is titled 'Funding Opportunities' and contains text about the Corporation's grant programs, a link to archived grants, and a section for 'Current Funding Opportunities' with a date of 'Jan 22, 2014' and a link to 'AmeriCorps State and National Grants FY 2014 (DRAFT)'. The right column is titled 'National Service In Your State' and features a map of the United States with a 'Read More' button.

National Service in Massachusetts

Meeting Community Needs in Massachusetts: More than **10,000** people of all ages and backgrounds are helping to meet local needs, strengthen communities, and increase civic engagement through national service in Massachusetts. Serving at more than **1,200** locations throughout the state, these citizens tutor and mentor children, support veterans and military families, provide health services, restore the environment, respond to disasters, increase economic opportunity, and recruit and manage volunteers. This year, the Corporation for National and Community Service (CNCS) will commit more than **\$41,180,000** to support Massachusetts communities through national service initiatives. Through a unique public-private partnership, this federal investment will leverage an additional **\$31,160,000** in other resources to strengthen community impact, build local support, and increase return on taxpayer dollars.

AmeriCorps

This year, AmeriCorps will provide more than **3,300** individuals the opportunity to provide intensive, results-driven service to meet education, environmental, health, economic, and other pressing needs in communities across Massachusetts. Most AmeriCorps grant funding goes to the **Massachusetts Service Alliance**, which in turn awards grants to nonprofit groups to respond to local needs. Most of the remainder of the grant funding is distributed by CNCS directly to multi-state and national organizations through a competitive grants process. Other individuals serve through AmeriCorps VISTA, whose members help bring individuals and communities out of poverty by serving full-time to fight illiteracy, improve health services, create businesses, and increase housing opportunities, and AmeriCorps NCCC (National Civilian Community Corps), a 10-month, full time residential program for men and women between the ages of 18 and 24. In exchange for their service, AmeriCorps members earn an education award that can be used to pay for college or to pay back qualified student loans. Since 1994, more than **27,000** Massachusetts residents have served more than **37 million** hours and have qualified for Segal AmeriCorps Education Awards totaling more than **\$85,580,000**.

Senior Corps

More than **7,000** seniors in Massachusetts contribute their time and talents in one of three Senior Corps programs. Foster Grandparents serve one-on-one as tutors and mentors to more than **6,600** young people who have special needs. Senior Companions help more than **950** homebound seniors and other adults maintain independence in their own homes. RSVP volunteers conduct

safety patrols, renovate homes, protect the environment, tutor and mentor youth, respond to natural disasters, and provide other services through more than **480** groups across Massachusetts.

Social Innovation Fund

The Social Innovation Fund transforms lives and communities using limited federal investment as a catalyst to grow the impact of nonprofits with evidence of strong results. It harnesses the expertise of grantmaking intermediaries to identify, evaluate and expand effective nonprofits and engages funding partners to contribute nearly three dollars to every one federal dollar invested. As the Social Innovation Fund network grows programs that work in Massachusetts, more people are able to overcome their most pressing challenges in the areas of economic opportunity, health, and youth development. The Social Innovation Fund is investing **\$4,550,000** in expanding the impact of **7** nonprofits in Massachusetts, selected and supported by **3** intermediaries.

[Download: Social Innovation Fund in Massachusetts \(PDF\)](#)

The Corporation for National and Community Service is a federal agency that improves lives, strengthens communities, and fosters civic engagement through service and volunteering. CNCS annually engages more than five million Americans in service to meet local needs through Senior Corps, AmeriCorps, and national days of service; improves communities through the Social Innovation Fund, and leads President Obama's national call to service initiative, United We Serve. Agency Name:	Corporation for National and Community Service
Description:	Established in 1971 and now one of the largest senior volunteer programs in the nation, RSVP offers a diverse range of volunteer activities that serve communities to create measurable impact, benefit volunteers through the service experience, and create community capacity. RSVP volunteers serve with commitments ranging from a few hours to 40 hours per week. Click here for RSVP Program Regulations. Through this competition CNCS seeks to increase

the impact of national service in 341 specific communities across the country. CNCS intends to fund RSVP grants that support volunteers 55 years and older serving in a diverse range of activities that meet specific community needs and that respond to National Performance Measures. RSVP grant applications must:

- Serve the entire geographic service area associated with the funding opportunities listed in Appendix A;
- Support the minimum number of volunteers listed in Appendix A;
- Meet the National Performance Measure requirements and other criteria established in this Notice; and
- Minimize, to the extent possible, disruptions to the current volunteers associated with any incumbent project.

Please see Appendix C for more information on how new and incumbent applicants must describe how they plan to minimize the disruption of volunteers if they propose graduating volunteer stations that are included in an incumbent project.

DoD Small Business Opportunities

The purpose of this section is to identify areas of potential small business growth that are new, developing, or have recently come to the attention of this office. The intent is not to duplicate information which exists through traditional acquisition tools.

DoD Service Forecasts

Future acquisition forecasts are prepared by a number of organizations within DoD. Forecasting methodologies vary by service but constitute the 'best estimate' of each.

Department of Education

FORECAST OF FUNDING OPPORTUNITIES UNDER THE DEPARTMENT OF EDUCATION DISCRETIONARY GRANT PROGRAMS FOR FISCAL YEAR (FY) 2014

(As of December 20, 2013)

This document lists virtually all programs and competitions under which the Department (we) has invited or expects to invite applications for new awards and provides actual or estimated deadline dates for the transmittal of applications under these programs. The lists are in the form of charts -- organized according to the Department's principal program offices -- and include programs and competitions we have previously announced, as well as those we plan to announce at a later date. **If you are interested in applying for any upcoming grants with the Department of Education, please take the time to register with SAM at www.SAM.gov, as you must have an active account in order to submit a grant application with our agency. We recommend you register now even as you are looking for eligible grant programs so that your SAM registration is active by the time the application is published. This will allow you to focus on writing the application during the period the application is available and you are not spending a portion of that time obtaining SAM registration. Please click [here](#) to refer to the SAM tip sheet for additional information.**

Note: This document is advisory only and is not an official application notice of the Department of Education. We expect to provide updates to this document starting in the first week of November in a fiscal year and continuing through the following July.

Note on printing: For best results, print this document in landscape orientation.

ORGANIZATION OF THIS DOCUMENT

We have assigned to each principal office a separate chart as follows:

[Chart 1 - Institute of Education Sciences.](#)

[Chart 2 - Office of English Language Acquisition.](#)

[Chart 3 - Office of Elementary and Secondary Education.](#)

[Chart 4 - Office of Innovation and Improvement.](#)

[Chart 5 - Office of Postsecondary Education](#) (Link to IFLE Chart)

[Chart 6 - Office of Special Education and Rehabilitative Services](#) (links to [NIDRR](#), [SEP](#), [RSA](#) charts).

[Chart 7 - Office of Vocational and Adult Education.](#)

[Chart 8 - Office of the Deputy Secretary - ODS.](#)

GRANT APPLICATION INFORMATION

Here's how you can tell whether we've already published an application notice for a particular program or competition in the *Federal Register* and whether the dates we list in this Forecast of Funding Opportunities are actual or estimates:

If we have published the application notice, we will list the *Federal Register* (FR) volume and page number (e.g., 65 FR 53402) after the date in column two. The other dates for that program or competition (columns four and five) are actual (as opposed to estimated) dates.

If we do not follow the date in column two with an FR citation, it means that we have yet to publish the application notice, and the dates (columns, two, four, and five) are estimates only. The actual dates will appear in the official application notice for that program or competition in the *Federal Register*.

Date of Application Notice. In column two of the charts, we lists the actual or estimated date for publication of the application notice for a given program or competition.

Jul 14, 2014 Applications Available:
May 28, 2014. Deadline for Notice of
Intent to Apply: June 27, 2014. The
Department will be able to develop a
more efficient process for reviewing
grant applications if it has a better
understanding of the number of entities
that intend to apply for funding under
this competition. Therefore, the Secretary
strongly encourages each potential
applicant to notify the Department by
sending a short email message indicating
the applicant's intent to submit an
application for funding. The email need
not include information regarding the

content of the proposed application, only the applicant's intent to submit it. The Secretary requests that this email notification be sent to Christine Miller at TQPartnership@ed.gov. Applicants that fail to provide this email notification may still apply for funding. Date of Pre-Application Webinars (all times are Washington, DC time): Tuesday, June 10, 2014 at 10:00 a.m. and Thursday, June 12, 2014 at 2:00 p.m. Further information will be available at: www2.ed.gov/programs/tqpartnership/aplicant.html. Eligible Applicants:

Additional Information on Eligibility:

All applicants must meet the following general application requirements in order to be considered for funding. Except as specifically noted in this section, the general application requirements are from section 202 of the HEA (20 U.S.C. 1022a). Each eligible partnership desiring a grant under this program must submit an application that contains-- (a) A needs assessment of the partners in the eligible partnership with respect to the preparation, ongoing training, professional development, and retention of general education and special education teachers, principals, and, as applicable, early childhood educators; (b) A description of the extent to which the program to be carried out with grant funds, as described in Absolute Priority 1 or Absolute Priority 2, or both, in this notice, and, if the applicant chooses to do so, a Partnership Grant for the Development of Leadership Program, as described in section 202(f) of the HEA, will prepare prospective and new teachers with strong teaching skills; (c) A description of how such program will

prepare prospective and new teachers to understand and use research and data to modify and improve classroom instruction; (d) A description of-- (1) How the eligible partnership will coordinate strategies and activities assisted under the grant with other teacher preparation or professional development programs, including programs funded under the ESEA and IDEA and through the National Science Foundation; and (2) How the activities of the partnership will be consistent with State, local, and other education reform activities that promote teacher quality and student academic achievement; (e) An assessment that describes the resources available to the eligible partnership, including-- (1) The integration of funds from other related sources; (2) The intended use of the grant funds; and (3) The commitment of the resources of the partnership to the activities assisted under this program, including financial support, faculty participation, and time commitments, and to the continuation of the activities when the grant ends. (f) A description of-- (1) How the eligible partnership will meet the purposes of the TQP Grant Program as specified in section 201 of the HEA; (2) How the partnership will carry out the activities required under Absolute Priority 1 or Absolute Priority 2, or both, as described in this notice, based on the needs identified in paragraph (a), with the goal of improving student academic achievement; (3) If the partnership chooses to use funds under the TQP Grant Program for a project or activities under section 202(f) of the HEA [Partnership Grants for the Development of Leadership Programs] or section 202(g) of the HEA [Partnership with Digital Education Content Developer], how the partnership will carry out such project or required activities based on the

Description:

needs identified in the needs assessment described in paragraph (a), with the goal of improving student academic achievement;

information. Purpose of Program: The Teacher Quality Partnership (TQP) Grant Program aims to increase student achievement by improving the quality of new prospective teachers by enhancing the preparation of prospective teachers and the professional development activities for current teachers; holding teacher preparation programs at institutions of higher education (IHEs) accountable for preparing highly qualified teachers; and recruiting effective individuals, including minorities and individuals from other occupations, into the teaching force.

Background: The TQP Grant Program supports partnerships among (i) IHEs, (ii) high-need local educational agencies (LEAs), and (iii) high-need schools served by such LEAs or high-need early childhood education (ECE) programs.

These partnerships must implement (a) teacher preparation programs at the pre-baccalaureate or "fifth-year" level that include specific reforms in IHEs' existing teacher preparation programs; (b) teacher

residency programs for individuals with strong academic or professional backgrounds but without teaching experience; or (c) both. In this competition, we are especially interested in supporting partnership programs that prepare teachers to teach subjects in science, technology, engineering, and mathematics (STEM). In his 2011 State of the Union address, the President called for a new effort to prepare 100,000 STEM teachers over the next decade with strong teaching skills and deep content knowledge. The President's goal has been incorporated into an Administration-wide priority, as part of the both the Federal STEM Education 5-Year Strategic Plan \1\ released in May 2013 and as a Cross Agency Priority Goal \2\ announced earlier this year. In addition, answering the President's call to action, nearly 200 organizations have formed a coalition called 100Kin10, all committed to the goal of increasing the supply of excellent STEM teachers; hiring, developing, and retaining excellent STEM teachers; and building the 100Kin10 movement.

Agency Name:
Description:

National Endowment for the Humanities
NEH Bridging Cultures at Community Colleges grants are intended to strengthen and enrich humanities education and scholarship at community colleges or community college systems. Grants are used to enhance the humanities content of existing programs, develop new programs, or lay the foundation for more extensive endeavors in the future. NEH Bridging Cultures at Community Colleges grants *¿* create opportunities for community college faculty members to study together while improving their capacity to teach the humanities; *¿* enhance or develop areas of need in an institution's humanities programs; and *¿* give community college faculty access to humanities resources through partnerships with other institutions with appropriate resources. Projects must focus on the theme of Bridging Cultures. This agency-wide initiative encourages exploration of the ways in which cultures from around the globe, as well as the myriad subcultures within America's borders, have influenced American society. With the aim of revitalizing intellectual and civic life through the humanities, NEH welcomes proposals that enhance understanding of diverse countries, peoples, and cultural and intellectual traditions worldwide. Applications might also investigate how Americans have approached and attempted to surmount seemingly unbridgeable cultural divides, or examine the ideals of civility and civic discourse that have informed this quest. In connection with a focus on civic discourse, projects might explore the role of women in America's civic life as well as the

civic role of women in other cultures and regions of the world. Projects must draw on sound humanities scholarship related to the theme of Bridging Cultures, engage participating faculty in shared readings of important humanities texts, involve humanities scholars with appropriate expertise, improve the quality of humanities course offerings at a community college or community college system, and create opportunities to disseminate their results. The application must reflect a collaborative relationship between a community college or community college system and another institution with appropriate resources (such as a college or university, museum, research library, or professional association) in the planning and implementation of the project. The applicant of record may be a community college, community college system, or another institution with appropriate resources.

The Director of the Institute of Education Sciences (Institute) announces the Institute's FY 2015 competitions for grants to support education research and special education research. The Director takes this action under the Education Sciences Reform Act of 2002. The Institute's purpose in awarding these grants is to provide national leadership in expanding fundamental knowledge and understanding (1) of developmental and school readiness outcomes for infants and toddlers with or at risk for disability, and (2) of education outcomes for all students from early childhood education through postsecondary and adult education.

Purpose of Program: The central purpose of the Institute's research grant programs is to provide interested

individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all students. These interested individuals include parents, educators, students, researchers, and policymakers. In carrying out its grant programs, the Institute provides support for programs of research in areas of demonstrated national need.

Competitions in This Notice: The Institute will conduct seven research competitions in FY 2015 through two of its National Education Centers: The Institute's National Center for Education Research (NCER) will hold five competitions: One competition for education research, one competition for education research training, one competition for education research and development centers, one competition for statistical and research methodology in education, and one competition for partnerships and collaborations focused on problems of practice or policy. The Institute's National Center for Special Education Research (NCSER) will hold two competitions: one competition for special education research and one competition for special education research training.

Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. The Director of the Institute of Education Sciences (Institute) announces the Institute's FY 2015 competitions for grants to support education research and special education research. The Director takes this action under the Education Sciences Reform Act of 2002. The Institute's purpose in awarding these grants is to provide national leadership in expanding fundamental knowledge and

understanding (1) of developmental and school readiness outcomes for infants and toddlers with or at risk for disability, and (2) of education outcomes for all students from early childhood education through postsecondary and adult education.

Purpose of Program: The central purpose of the Institute's research grant programs is to provide interested individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all students. These interested individuals include parents, educators, students, researchers, and policymakers. In carrying out its grant programs, the Institute provides support for programs of research in areas of demonstrated national need.

Competitions in This Notice: The Institute will conduct seven research competitions in FY 2015 through two of its National Education Centers: The Institute's National Center for Education Research (NCER) will hold five competitions: One competition for education research, one competition for education research training, one competition for education research and development centers, one competition for statistical and research methodology in education, and one competition for partnerships and collaborations focused on problems of practice or policy. The Institute's National Center for Special Education Research (NCSER) will hold two competitions: one competition for special education research and one competition for special education research training.

Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. The Director of the Institute of Education Sciences (Institute) announces the Institute's FY 2015 competitions for grants to support education research and special education research. The Director takes this action under the Education Sciences Reform Act of 2002. The Institute's purpose in awarding these grants is to provide national leadership in expanding fundamental knowledge and understanding (1) of developmental and school readiness outcomes for infants and toddlers with or at risk for

disability, and (2) of education outcomes for all students from early childhood education through postsecondary and adult education.

Purpose of Program: The central purpose of the Institute's research grant programs is to provide interested individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all students. These interested individuals include parents, educators, students, researchers, and policymakers. In carrying out its grant programs, the Institute provides support for programs of research in areas of demonstrated national need.

Competitions in This Notice: The Institute will conduct seven research competitions in FY 2015 through two of its National Education Centers: The Institute's National Center for Education Research (NCER) will hold five competitions: One competition for education research, one competition for education research training, one competition for education research and development centers, one competition for statistical and research methodology in education, and one competition for partnerships and collaborations focused on problems of practice or policy. The Institute's National Center for Special Education Research (NCSER) will hold two competitions: one competition for special education research and one competition for special education research training.

GRANTS & CONTRACTS

Much of the work of the Department of Energy's **Office of Science** (SC) is supported through grants and contractual vehicles. This work is processed through the Office of Science **Grants and Contracts Division** (GCD) which serves as the principal acquisition, financial assistance (grants and cooperative agreements) and contract/grant management advisor to the Director of Science. The GCD provides independent analyses, advice and recommendations on procurement and assistance actions initiated by SC; identifies problem areas, opportunities and management issues and makes recommendations; serves as SC focal point in developing positions and responses to proposed Federal and DOE procurement and assistance regulations and business management policies and procedures; provides advice and guidance and serves as the SC focal point with DOE field offices, laboratories, universities, contractors, grantees and other Government agencies on SC policies and strategies with respect to acquisition, financial assistance and contract/grant management issues.

The Department's **Office of Nuclear Energy** re-established, in FY 1998, a competitive peer-reviewed program to provide grants allowing nuclear engineering faculty and students to conduct innovative research in nuclear engineering and related areas. The awards run from one to three years and are granted in eight separate technical areas related to nuclear engineering: reactor physics, reactor engineering, reactor materials, radiological engineering, radioactive waste management, applied radiation science, nuclear safety and risk analysis, and innovative technologies for next generation reactors, space power and propulsion, or radiation sources. This type of research is vital to the academic community to help promote excellence in nuclear engineering and provide resolution to issues confronting nuclear engineering in general.

The **Office of Nuclear Energy** provides tuition, stipends, and practicums to outstanding graduate students studying nuclear engineering and health physics and undergraduate scholarships and practicums to students pursuing a nuclear engineering course of study to ensure that our country will have an adequate supply of trained nuclear scientists and engineers. As an element of this activity, the University Partnership Program pairs minority institutions with institutions offering a nuclear engineering degree to enable more minorities to enter the field of nuclear engineering.

Description:

The purpose of this modification is to revise
the Notice of Intent to include eligibility
language for ALL Applicants and
specifically for DOE Federally Funded
Research and Development Centers
(FFRDCs). The Office of Energy Efficiency
and Renewable Energy (EERE) intends to
issue, on behalf of the Wind and Water
Power Technologies Office (WWPTO), a
Funding Opportunity Announcement (FOA)
entitled? Technology Incubator for Wind
Energy Innovations? EERE is an
organization focused on achieving
aggressive and well-defined mid-to-long
term clean energy goals for the United
States of America. In that context, EERE
has established multi-year plans and
roadmaps. EERE focuses the majority of its
resources on a limited number of "highest
probability of success"
pathways/approaches to ensure that the
program initiatives are supported at a
critical mass (both in terms of dollars and
time) for maximum impact. This roadmap-
based approach is one of EERE's greatest
strengths, which can create challenges in
recognizing and exploring unanticipated,
game changing pathways/approaches which
may ultimately be superior to the
pathways/approaches on our existing
roadmaps. To enhance the responsiveness of
the roadmap approach, EERE is issuing
"Incubator" Funding Opportunity
Announcements within its existing Offices
and programs to support innovative
technologies and solutions that could help
meet existing goals but are not represented
in a significant way in the Offices' existing

Multi-Year Program Plans (MYPPs) or current portfolios. The Incubator programs will allow EERE to assess new technologies for their potential to be on ramped to future MYPPs. Successful incubator projects will reduce the risk associated with potentially breakthrough approaches and technologies so that they could be viable candidates for inclusion in future program roadmaps. The planned Technology Incubator for Wind Energy Innovations? FOA continues the work of the Wind Program within EERE, and supports the long-term goals of WWPTO, which include: Lower the Levelized Cost of Energy (LCOE) of land-based utility-scale wind energy systems from 2011 reference costs¹ of 7.2 ¢/kWh (cents per kilowatt hour) to 4.2 ¢/kWh by 2030 ?Lower LCOE of fixed-bottom offshore utility-scale wind energy systems from 2011 reference costs¹ of 22.5 ¢/kWh to 13.7 ¢/kWh by 2030. The FOA encompasses applications for any and all ideas that have a significant potential to advance the mission of the Wind Program. All high-impact applications will be considered. The purpose of this Notice is to provide potential applicants advance notice that the Wind and Water Power Technologies Office, on behalf of EERE intends to issue a FOA titled, ?Technology Incubator for Wind Energy Innovations?.

NO APPLICATIONS WILL BE ACCEPTED THROUGH THIS NOTICE.

Please do not submit questions or respond to this Notice of Intent. Prospective applicants to the FOA should begin developing partnerships, formulating ideas, and gathering data in anticipation of the issuance of this FOA. It is anticipated that this FOA will be posted to EERE Exchange no later than March 2014. This Notice is issued so that interested parties are aware of the EERE?s intention to issue this FOA in the near term. All of the information contained in this Notice is subject to change. EERE will not respond to questions

Below the header is a navigation menu with "Home", "Topics", "How Do I?", "Get Involved", "News", and "About DHS". The main content area is titled "DHS Financial Assistance" and includes a breadcrumb trail: "Home > About DHS > Doing Business with DHS > DHS Financial Assistance". The page is divided into three columns. The left column, "About DHS", contains links for "The Secretary", "Budget & Performance", "Careers", "Contact Us", "Do Business with DHS", "Acquisition Policies & Regulations", "Business Contacts", "Business Initiatives", "Contract Opportunities", "Get Started", "Grant Funding", "Small Business Assistance", and "The Recovery Act". The middle column, "DHS Financial Assistance", features a "Financial Assistance Overview" section with a paragraph explaining that most DHS components have authority to execute and manage financial assistance to support the DHS mission. It also includes a "Background" section stating that although most DHS components possess some grant-making programs, the majority of programs and funding exist within FEMA. Below this is a link for "DHS Financial Assistance by Component" and a section titled "Financial Assistance Policy and Oversight (FAPO)" which describes its role as the functional lead for the Financial Assistance Line of Business. The right column, "Financial Assistance Resources", lists various DHS components and agencies that issue financial assistance, including the Federal Emergency Management Agency (FEMA), United States Coast Guard (USCG), Science and Technology (S&T), Defense Nuclear Detection Office (DNDO), U.S. Citizenship and Immigration Services (USCIS), National Protection and Programs Directorate (NPPD), Office of Health Affairs (OHA), Immigration and Customs Enforcement (ICE), and United States Secret Service (USSS).

FEMA

Dear FEMA Grantee:

In August 2011, Congress passed the Budget Control Act of 2011 (Public Law 112-25) to limit federal spending and reduce our national debt. To enforce annual spending limits, that law requires across-the-board funding reductions to almost every federal program, project, and activity through a process called "sequestration."

As a consequence, all federal agencies, including FEMA, will have to implement steep funding cuts, beginning in the current fiscal year. Leadership throughout FEMA and the Department of Homeland Security have been working hard to determine how we might best mitigate the impact of possible sequestration budget reductions on our state, local, tribal, territorial, non-profit and private sector partners.

Nonetheless, the sequestration order issued on March 1, 2013 will result in FEMA's current Fiscal Year (FY) 2013 funding levels being reduced by approximately 5%. This will result in a reduction to FEMA's State and Local grant funding levels of approximately \$104 million.

The sequestration reductions will affect FY 2013 funding levels for all GPD grants, subject to FEMA's final FY 2013 appropriation. Sequestration will not affect grants or cooperative agreements awarded in previous fiscal years.

We recognize the hardships that sequestration is likely to cause and thank you for your cooperation as we work together to manage these unfortunate circumstances. We value the important work that you do and appreciate your dedication to the security and resilience of the Nation. As always, your thoughts, questions and concerns are welcome.

Sincerely,

A handwritten signature in blue ink, appearing to read "David J. Kaufman".

Eligible Applicants: County governments
State governments
City or township governments

Additional Information on Eligibility: State and Local Governments must be invited by DHS to apply. DHS will invite governmental organizations to apply for continuation funding under this FOA. In addition, as part of ongoing improvements in the BioWatch Program, DHS may evaluate requests for some direct support of laboratories that analyze samples collected under the Program. If necessary, this FOA will also award an unspecified number of supplemental awards to current recipients in the event of emergencies, Special Events with National Significance, and limited alterations to current recipients to ensure a secure and resilient nation with the capabilities to thwart terrorist attacks.

Agency Name: Office of Procurement Operations - Grants Division

Description: The BioWatch Program is a cornerstone of the Department of Homeland Security's (DHS) comprehensive strategy for countering biological terrorism. The BioWatch Program is an early warning system that is designed to detect the intentional release of select aerosolized biological agents. The BioWatch Program's mission is to provide and maintain a continuous bio-terrorism air monitoring system in metropolitan areas and coordinate with state and local public health communities to prepare for and respond to a bioterrorist event. This mission is accomplished by serving as an early warning system which enhances the security of jurisdictions

by providing the needed time to execute their comprehensive concept of operations plans to counter biological terrorism. The Biowatch Program is a critical part of an ongoing national effort to build and sustain preparedness which helps the United States to maintain momentum through targeted jurisdictional planning that highlights preventative actions necessary to allow for a proper and timely response and begin the process to recovery from a biological agent release. The BioWatch Evaluation Program (BWEP) will be conducted under the BioWatch Quality Assurance Program effective April 1, 2013. This program will consist of independent external audits (Quality Assurance) by Signature Science and internal audits (Quality Control) by BioWatch Systems Program Office field personnel. This approach will initially be conducted with a focus on adherence to the BioWatch Field Operations Standard Operating Procedure (SOP), Version 1.3 and will eventually evolve to encompass the Field Operations Quality Assurance Program Plan (QAPP). In order to ensure a robust QA / QC program the jurisdictions may be subject to a QA external audit and a QC internal audit during the same cooperative agreement cycle (year).

Estimated Total Program Funding:	\$51,000,000
Award Ceiling:	\$51,000,000
Award Floor:	\$500,000
Eligible Applicants:	County governments Private institutions of higher education For profit organizations other than small businesses State governments City or township governments Others (see text field entitled "Additional Information on Eligibility" for clarification) Public and State controlled institutions of higher education Public housing authorities/Indian housing authorities Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education Special district governments Small businesses
Additional Information on Eligibility:	1. Eligible applicants also include: Indian tribes, tribally designated

housing entities as defined at Section 4(22) of the Native American Housing Assistance and Self-Determination Act of 1996, and national or regional organizations representing Native American housing interests. Applicants who are national or regional organizations representing Native American interests should indicate such on the one-page application summary.² Any organization submitting an application under this NOFA may not be included as a subcontractor or consultant in any other application. Subcontractors and consultants may be included in more than one application. Any organization submitting an application where the organization or staff of the organization is listed as subcontractors or consultants on another application will be not be considered for an award.³ Selected providers will be deployed, as HUD deems most necessary across the country.⁴ Since the diversity and intensity of activities carried out and work products developed may be extensive, collaboration and coordination among providers is essential. For example, HUD may task two or more successful applicants to collaborate as a team in providing necessary direct technical and capacity building assistance to specific customers or in developing products and tools or group learning materials. Furthermore, HUD may select a successful applicant to conduct overall coordination for the TA network.⁵ Awardees tasked to provide technical assistance or capacity building to HOME grantees and/or CHDOs must have at least one (1) Certified HOME Program Specialist who has passed the

Regulations Training exam with a score of 80 or higher available to conduct the work tasked, unless HUD determines that a HOME Certified Specialist is not necessary for the engagement. The Certified HOME Program Specialist(s) may be in-house staff of the applicant, subcontractor staff or consultant(s). The Certified HOME Program Specialist(s) must also have at least five years of demonstrated experience in administering a HOME program, including finance and underwriting; or providing direct TA on HOME regulations. Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.

Additional Information on Eligibility:

1. Applications to supplement existing projects are eligible to compete with applications for new awards. Federal agencies are not eligible to submit applications. The 2014 General Section identifies threshold requirements that must be met for an organization to receive an award. 2. If your organization received an award under the FY2013 Healthy Homes Technical Studies Grant Program cycle, you are not eligible to apply to that program, unless you apply with a different Principal Investigator. Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.

Agency Name:

Department of Housing and Urban Development

Description:

HUD is funding studies to improve HUD's and the public's knowledge of housing-related health and safety hazards, and to improve or develop new hazard assessment and control methods, with a focus on key residential health and safety hazards. HUD is especially interested in applications which will advance our knowledge on key healthy homes issues, including lead-based paint, by addressing important gaps in the science related to the accurate and efficient identification of hazards and cost effective hazard mitigation.

Key hazards are discussed in Appendix A, Key Residential Health and Safety Hazards, of this NOPI. A list of references that serves as the basis for the information provided in this NOPI is provided as Appendix B, Relevant Publications and Guidelines.
